6. Talked with General McClelland about the several Senate and House resolutions concerning the study of radio and television frequencies and recent announcements that the President intended to appoint a Telecommunications Commission. General McClelland indicated that he did not believe these measures posed any problem insofar as the Agency is concerned. However, it was agreed that any future developments in this area would be the subject of future discussions.

1. Mr. Herschel Clesner on the staff of the Senate Judiciary Subcommittee on Patents, Trademarks and Copyrights called and asked to have his name added to the mailing list for Foreign Documents Division's Consolidated Translation Survey. These arrangements have been made.

2. Mr. Frank Ecker (Bureau of the Budget) called in connection with the Director's letter of 8 December regarding our proposed exceptions from the Government Employees Training Act. He asked what caused us to write the letter, and he was advised that the Civil Service Commission had submitted to us the proposed general order which had been submitted by the Civil Service Commission. He was told that we had replied to the Commission to the effect that inasmuch as a specific order had been submitted for CIA, we did not propose to offer comments on the general order. We felt that the Bureau should be advised of this fact. The other reason for the letter was our interest in having this proposal acted upon as soon as possible.

Mr. Ecker indicated that Mr. Parker of the Bureau was preparing a letter to the Agency asking for our formal comment on the Civil Service Commission's suggestions to our proposal. He said he wanted to be sure that there was no misunderstanding regarding this matter and asked that Colonel White be advised of our conversation. Our appreciation was expressed for the referral of the Commission's letter on an informal basis, and Mr. Ecker was again reminded that we would like to have the order acted upon as soon as possible.
